

C.H. ROBINSON

## Commitment to Carriers

At C.H. Robinson, we're strongly committed to helping carriers keep clear control of their own data. We only track information specific to each load so that shippers can have a clear understanding of where their goods are.

**Once a load is marked as delivered, tracking stops immediately.**

Here's our quick and easy guide to data transparency.

# Tracking and Data Privacy

### When do we start tracking?

## 4 Hours

before appointment time

### What data do we collect?

## Location Data Time of Location

### When do we stop tracking?

## Immediately

when load is marked delivered

| Tracking Solution             |                      | Start Tracking Logic  | Data Transmitted    |                  |                        |            | Stop Tracking Logic  |
|-------------------------------|----------------------|---|---------------------|------------------|------------------------|------------|--|
|                               |                      |   | Latitude/ Longitude | Time of Location | Nearest Street Address | Event Code |  |
| <b>API</b>                    |                      | Carrier controls timing of when information is sent to CHR  | ✓                   | ✓                | ✓                      | ✓          | Carrier controls timing of when information is sent to CHR                           |
| <b>EDI</b>                    |                      |   | ✓                   | ✓                | ✓                      | ✓          |  |
| <b>GPS/ELD</b>                |                      | Begins 4 hours prior to pick up time*   | ✓                   | ✓                | ✓                      | ✗          | Immediately when load is marked delivered (based on location data or driver input)** |
| <b>Navisphere Carrier App</b> |                      |   | ✓                   | ✓                | ✗                      | ✗          |  |
| <b>3rd Party Apps</b>         | <b>MacroPoint</b>    | Begins 4 hours prior to pick up time*   | ✓                   | ✓                | ✓                      | ✗          | Immediately when load is marked delivered (based on location data or driver input)** |
|                               | <b>Trucker Tools</b> | Only if Driver App is not used, 1 hour before pick up time CHR will send a request through Trucker Tools. Tracking begins on acceptance | ✓                   | ✓                | ✓                      | ✗          |  |

\*If pickup appointment is a window, tracking begins 4 hours prior to window start time.

\*\*If a depart drop update is missed, there is failsafe logic to automatically terminate tracking 24 hours after the scheduled delivery date/time.

Carrier also has the option to provide the depart drop update via the Navisphere Carrier website or app. Tracking will terminate once that is entered.

All updates captured are posted in the respective load on the Navisphere Carrier website and are visible to both the carrier and the customer.

All listed app options provide the driver an indicator when the device is supplying location updates

Visit [Carrier Tracking Options on chrobobinson.com](https://www.chrobobinson.com/Carrier-Tracking-Options) to start tracking and learn more about your tracking options.
